

SCSP Roadshow 2024

Following on from the SCSP Summer Summit in June 2024, we are now holding a number of roadshows starting in July through to October 2024. The roadshows will give key messages around the national picture of safeguarding for children and young people, and how we are responding to this in Sandwell. This includes the new national safeguarding arrangements and information about our approach to family help. We will also introduce the SCSP STaR Practice Model and the New Integrated Front Door arrangements.

These are important changes and we want as many of our partners in Sandwell to come along to one of the Roadshows to hear about what is happening and the role they play.

The roadshows will cover the following topics;

An overview of the national landscape of Safeguarding children

Sandwell's response and approach to Family Help

Learn about the Partnership STaR Practice Model which applicable for all agencies, and how this consistent approach supports sustainable change for children and families

How we are strengthening the Integrated Front Door arrangements with a focus on parental engagement and consent

There will be opportunities for questions and feedback at the end of the session
